

## Window Shade with Sidetracks Measuring Guide

Use this handy guide to keep track of your sidetrack shade window measurements.  
For skylight or window shades without sidetracks, download the measuring guides from our website!

If you plan to have **Energy Saving Sidetracks** make sure you measure the **diagonal measurements** (top right corner to bottom left corner and top left corner to bottom right corner). If those measurements differ by more than ¼” you will need to shim your window to accommodate the Sidetrack System.

- **Width:** Measure the exact inside measurement of the window at **the Top, Middle and Bottom**. Write the measurements down below. Circle the narrowest width measurement
- **Length:** Measure the exact inside distance from top of window to the sill at **the Left, Middle and Right**. Write the measurement down below. Circle the shortest length measurement.

<b>Room:</b>	<b>Shade Color:</b>				<b>Track Color:</b> White Brown				<b>Window Number:</b>	
<b>Measurement</b>	<b>Measure #1</b>		<b>Measure #2</b>		<b>Measure #3</b>		<b>Diagonal Measurements</b>			
<b>Width (Inches):</b> Circle Narrowest							Top Left to Bottom Right Measurement:		Top Right to Bottom Left Measurement:	
<b>Length (Inches):</b> Circle Shortest										
<b>Lift Option:</b> Circle One	<b>Standard</b>		<b>Continuous Cord Loop</b>		Top Down/Bottom Up		Cordless		Cordless Top Down/Bottom Up	
	Left Cord	Right Cord	Left cord	Right Cord
